SUMMARY

Computer Science undergraduate specializing in **Machine Learning, NLP, and Generative AI**, with hands-on experience building **LLM** applications using **RAG**, **vector search**, and **REST API** development in Python.

EDUCATION

Girijananda Chowdhury University, Guwahati

B.Tech in Computer Science and Engineering

2023 - 2027

CGPA: 8.82 / 10

CERTIFICATIONS

- **Internship Completion Certificate** - Indian Oil Corporation Limited (IOCL) | 2026
- **Introduction to Machine Learning** - Kaggle | 2026
- **Foundations of Retrieval-Augmented Generation (RAG) Systems** - CodeSignal | 2026
- **Summer Internship Certificate** - Gauhati University | June 2025

EXPERIENCE

Technical Intern - Machine Learning / Generative AI | Indian Oil Corporation Limited May 2026 - July 2026

- Developed an **AI-powered SOP Chatbot** using **Retrieval-Augmented Generation (RAG)** and **Large Language Models (LLMs)** to retrieve relevant information from SOP documents and generate context aware, citation backed responses.
- Built an end-to-end **document processing and semantic search pipeline** text extraction, preprocessing, **chunking**, **embedding generation** with Sentence Transformers (all-MiniLM-L6-v2), and **FAISS vector indexing** for efficient retrieval of relevant SOP sections.
- Designed and deployed a **FastAPI REST backend** integrated with **Ollama** and local **LLMs**, enabling low latency, citation based responses with traceable document references; collaborated in an **Agile** team environment.

PROJECTS

SOP Assistant: AI-Powered SOP Chatbot | RAG, LLM, NLP, Python, FAISS, Transformers, FastAPI July 2026

- Built a **RAG-based conversational AI chatbot** for querying SOP documents using **FAISS**, **Sentence Transformers**, **Ollama (Llama 3.2)**, and **FastAPI**, exposed via a RESTful API.
- Enforced an end-to-end **document ingestion and semantic search pipeline**, including text extraction, chunking, **embedding generation**, and **vector database indexing** for fast, context aware retrieval.

LegalEase: AI-Powered Legal Document Simplification | NLP, ML, Python, BART, PyTorch, Flask June 2026

- Built an **AI-powered Flask web application** using Python, **NLP**, the **BART transformer model**, and **PyTorch** to simplify legal documents and **summarize** court judgments via **text summarization**.
- Implemented a **PDF processing** and text preprocessing pipeline to generate concise, easy to understand summaries while preserving key legal information and document structure.

Assamese Language Sentiment Analyser | NLP, Machine Learning, Python, Scikit-learn

July 2025

- Built an **NLP-based sentiment analysis** system to classify low resource **Assamese language** text into positive, negative, and neutral sentiment classes.
- Performed **text preprocessing**, **tokenization**, **feature extraction**, and **ML based classification** using Python and open-source NLP libraries, improving model accuracy through iterative evaluation.

TECHNICAL SKILLS

Programming Languages: C/C++, Python, JavaScript (ES6+), SQL

AI / Machine Learning: Machine Learning, Deep Learning, Neural Networks, Large Language Models (LLM), Generative AI, PyTorch, TensorFlow, Hugging Face Transformers, NLP, RAG (Retrieval-Augmented Generation), Model Fine-Tuning, Prompt Engineering, Sentence Transformers, FAISS, Vector Databases, Embeddings, Semantic Search

Backend & Frontend: Node.js, Express.js, FastAPI, Flask, RESTful API Design, React.js, HTML, CSS, Responsive Design

Databases: MySQL, Vector Databases, Database Design, Data Science

Cloud & DevOps: AWS (EC2, S3), Linux/Unix, Git/GitHub, CI/CD Basics

Tools: Git/GitHub, VS Code, Jupyter, Streamlit, VMware, Ollama, REST APIs

Networking: TCP/IP, HTTP/HTTPS, DNS

Relevant Coursework: Data Structures & Algorithms (DSA), Operating Systems, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Computer Networks, Compiler Design, Software Engineering

Soft Skills: Problem Solving, Teamwork, Leadership, Communication, Adaptability, Time Management
